Notes:

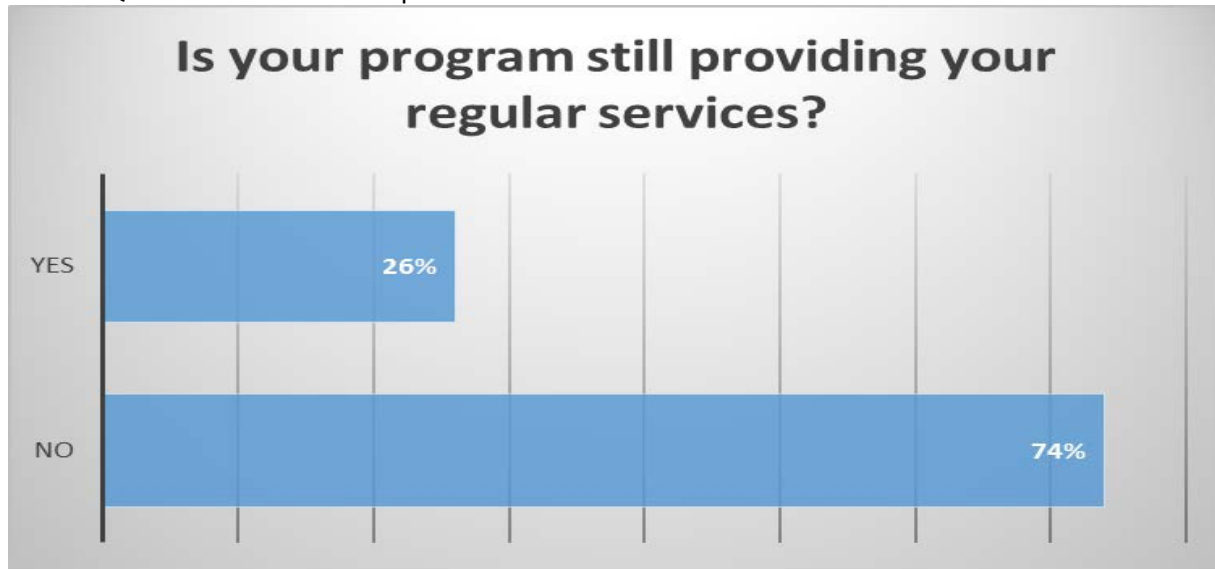

Poll #1 – Current Mobile Program Operations - N=89

Poll #2 – Focusing on Funding – N=80

Participation was anonymous in both polls, and these results do not represent unique mobile programs. More than 1 person per program may have answered.

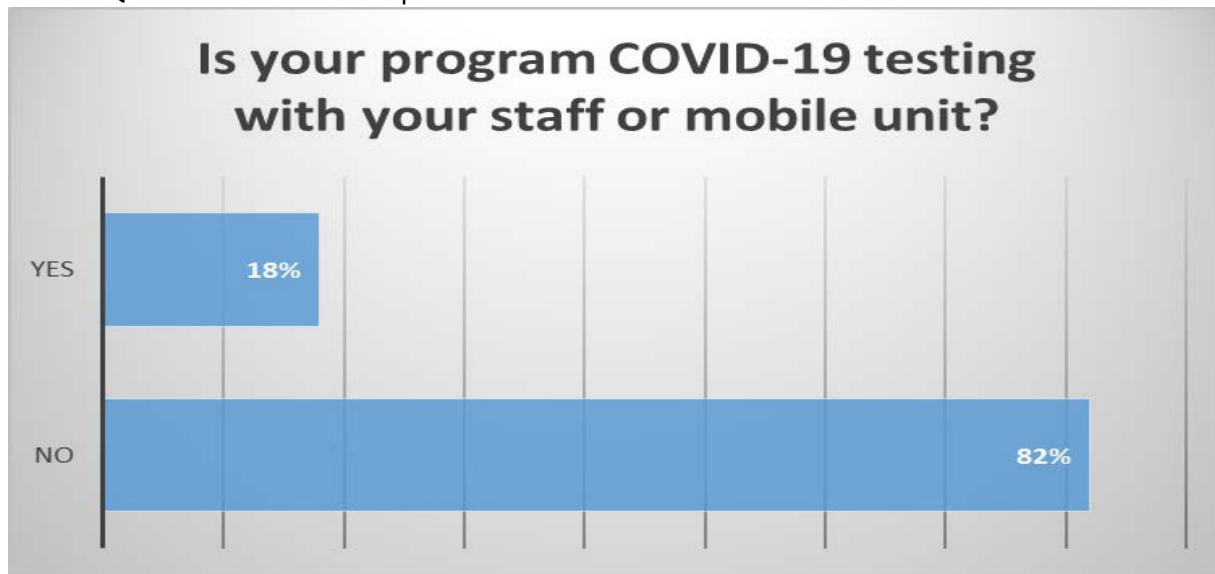

# POLL #1 – Focusing on Current Mobile Program Operations

Poll 1 - Question #1 N=89 unique answers

*\*In the 3/31/20 zoom meeting poll, out of 121 unique answers, 19% reported Yes and 81% reported No. Since the answers were anonymous, we are unable to tell if the same clinics answered the questions, if different clinics answered, or if more clinics are back out providing their regular services.*

Poll 1 - Question #2 N=89 unique answers

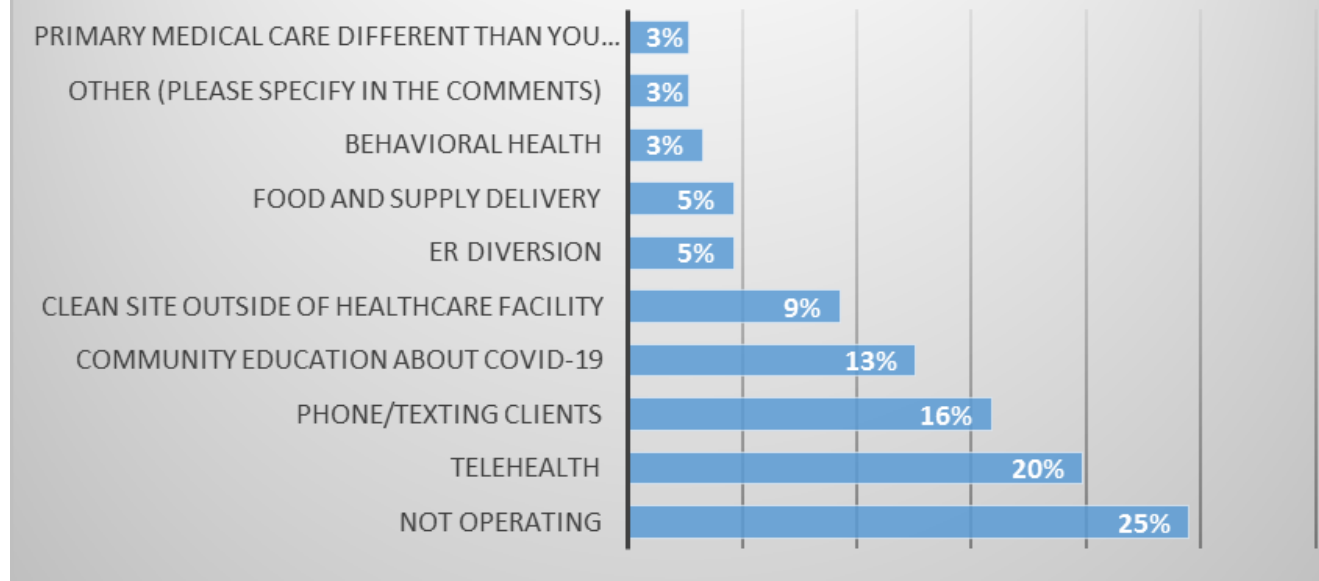

*\*In the 3/31/20 zoom meeting poll, out of 121 unique answers, 10% reported Yes and 90% reported No. Since the answers were anonymous, we are unable to tell if the same clinics answered the questions, if different clinics answered, or if more clinics are now providing COVID-19 testing.*

**Poll 1 - Question #3** N=89 unique answers, 151 responses (answer all that apply)

## Have you switched to providing alternative services, and if so, what type of services? (check all that apply)

*\*In the 3/31/20 zoom meeting poll, this questions was asked differently and did not have an 'other' or 'not operating' option. Out of 121 unique answers, 177 responses included 42% calling or texting clients, 36% providing telehealth, 31% providing educational materials about COVID-19, 20% a clean site outside of a healthcare facility, 11% as ER diversion and 7% providing food delivery. Since the answers were anonymous, we are unable to tell if the same clinics answered the questions, if different clinics answered, or if more clinics are now providing COVID-19 testing.*
